DOWNEAST CIDER DONUT

TIL that although very little is known about the spade-toothed whale and it's never been observed alive, thanks to a 2024 dissection of one of the very few specimens we know it has a nine-chambered stomach.

TIL the last person to be executed in France before the abolition of capital punishment in 1981 was also the last person to be lawfully executed by beheading (guillotine) anywhere in the Western world

TIL Adam DeVine was hit by a cement truck at age 11, breaking every bone in his legs. He spent two weeks in a coma, underwent 26 surgeries, and used a wheelchair during recovery. Today, he supports Children's Miracle Network Hospitals and regularly visits children in hospital.
